Arthur L. Money

**Assistant Secretary of Defense
(Command, Control, Communications and
Intelligence (C3I)) and
DoD Chief Information Officer**

*The DoD Chief Information Officer
cordially invites you to attend a*
Ribbon-Cutting Ceremony
*to celebrate the opening of the
Wedge 1 Consolidated Server Room.*

Wednesday, March 28, 2001
at 11:00 AM in the
Wedge 1 5th Floor CSR Room 5B400

**A S D
C 3 I
C I O**

On 29 July 1999, the Deputy Secretary of Defense issued a memorandum to establish Consolidated Server Rooms in the renovated Pentagon to provide a conditioned environment to support all common server needs and a governing body to operate and maintain the server rooms in accordance with the customer□s desires The Program Manager for the Pentagon Renovation, Project Manager for Information Management and Telecommunications (PM IM&T), and the Pentagon Area Information Services (PAIS) Common IT Oversight Boards have been instrumental in achieving this goal.

Colonel Kirsch, PM IM&T, is working closely with the Pentagon tenants represented on the PAIS Executive Board (PEB) chaired by Dr. Margaret Myers, Acting Department of Defense Deputy Chief Information Officer, to "transform Pentagon Area information technology services into a world-class, standards-based and secure-focused infostructure that provides the Enterprise global, timely, reliable, and affordable services for decision-making and operations."

PEB Members

The Consolidated Computer Facilities Working Group (CCFWG) was established in August of 1999 as the governing body under the authority of the ITS Executive Committee (now known as the PEB) to handle tenant needs and operational procedures for the CSRs. The CCFWG is a subordinate board to the Operational Requirements and Performance Board chaired by Dave Borland, Army Vice Director for Information Systems Command, Control, Communications, and Computers. This group pioneered a cooperative approach to shared IT facilities.

The CCFWG includes representatives from: Office of the Secretary of Defense, Washington Headquarters Services, all Military Services, Defense Information Systems Agency, Defense Intelligence Agency, Project Manager for Information Management and Telecommunications- Pentagon Renovation, Network Infrastructure Services Agency- Pentagon, and Pentagon Renovation program.

Construction on the Consolidated Server Room commenced in 2000. Members of the CCFWG developed joint design requirements and a handbook on how tenants will operate □side-by side□ in the computer server rooms. In conjunction with service providers for telecommunications network connectivity and facilities management, the group also drafted service-level agreements for tenants to execute with service providers before occupying the common server rooms. Server room design requirements include

- Security		
Perimeter secured to highest level		
Outer walls constructed to STF 50 rating		
-Architectural	-Administrative	-Mechanical
Raised Floors	Work Benches	Pre-action Sprinkler System
Walls	Secure	Environmental Control
Ceiling Height	Cabinets	Portable Fire Extinguishers
Floor Covering	Secure Racks	
Access Doors		-Structural
-Electrical		Floor
Conditioned Power Source		Sealant
S.M.A.R.T Uninterruptible Power Source		Loading
No Backup Generator Power		-Communication
Outlets		All users will be TC served
Dedicated Power Panel		Dedicated Server Room TC
Lighting		Cable Management System
Emergency Lighting		Under Floor Cable Tray
		SCI, SECRET, SBU, Unclass

Pentagon tenants agree that this state-of-the-art consolidated server room is just one example of the smart investments we are making in the Pentagon, one of our finest historic landmarks in America. There are 16 consolidated server rooms planned to be built throughout the building.

Army and Navy tenants will occupy the first CSR in Wedge 1 by April 2001. Today's ceremony celebrates the opening of the first Consolidated Server Room in the Pentagon and commemorates a major milestone in the Department of Defense□s march to improve the efficiency, reliability and security of information technology assets.

PROGRAM

11:00 AM   *Welcome & Opening Remarks*

Welcome:
Ms. Sarah Smythe, Director
Pentagon Area Common IT Oversight

Remarks:
Mr. Arthur Money, Assistant Secretary of Defense (Command, Control, Communications and Intelligence (C3I)) and DoD Chief Information Officer (CIO)

Dr. Margaret Myers, Acting DoD Deputy CIO and Chair, Pentagon Area Information Services Executive Board

Mr. Lee Evey, Program Manager
Pentagon Renovation Program

Colonel Robert Kirsch, Project Manager
Information Management & Telecommunications

11:20 AM   *Ribbon-Cutting*
Mr. Arthur Money, Colonel Robert Kirsch

11:25 AM   *Closing Remarks*
Ms. Sarah Smythe, Director
Pentagon Area Common IT Oversight

11:30 AM   *Reception*
Wedge 1 5th Floor

Room Tour
The CIO will host a tour through the Wedge 1 5th Floor Consolidated Server Room.

For any questions related to the CSR Ribbon-Cutting Ceremony, please contact Sarah Smythe or Carrie Cunningham at (703) 601-2124.
